DETAILED ACTION

1. Claim 1 is in the application.

Drawings

2. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the preset drawings are informal. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Vitus.

Vitus discloses a man overboard retrieval device comprising a handle, a frame attached to the handle and a net attached to the frame.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Mattenson discloses a rescue device including a handle, a frame and a net. Dahan discloses a rescuing device including a handle, a frame and a net.
